HOYA
FOR THE VISIONARIES

Adapts to light Adapts to your life

Offering convenience and comfort, Sensity lenses adapt to your lifestyle. Your clear lenses will darken when exposed to sun, and fade back to clear when indoors. With HOYA's Sensity range, you can enjoy the benefits of 2-in-1 glasses, without compromising on contrast or colour perception.

Greater convenience and comfort

Whether you're running errands or running up a mountain, when you're living a busy lifestyle, you don't have time to slow down. With Sensity light reactive lenses, you don't have to stop and change your glasses to ensure that your eyes are comfortable and protected, whatever the weather. Sensity lenses give you the benefit of prescription lenses with the UV protection of sunglasses, so you can enjoy two pairs of glasses within one frame.

Consistent performance in all seasons

"I love spending quality time with my son without limitations, whether we're working on a new project or going for a hike. Sensity is super convenient, it's like two pairs of glasses in one!"

- Marco, Electrician

Sensity 2

Enjoy the convenience of light adaptive lenses.

With outstanding comfort and performance, Sensity 2 lenses darken outdoors and quickly fade back to exceptionally clear when indoors, promising comfortable vision in all climates and seasons.
